Ending Plan

27th to 2nd:
- Finish development
  - To define asap.
  - Write a SAS JSON to TLP convertor
- Put on AWS
- Look into The VAST challenge / Graph Drawing Contest. Might be easy to convert data so it can be used and show off system
- Get time to render for D3 and Vis.js
- Towards the end of the week, system evaluation.
- Find out different ways that graphs can be laid out in vis.js / what other ways can they be visualised

3rd:
- Finish dev or start implementation for dissertation

4th and 5th:
- Write up implementation in dissertation
  - References!

6th to 21st:
- 6th of March - Give full draft of dissertation to Helen
- 13th of March - Hand in another draft
- 17th-ish - 21st Match - Final dissertation work
- 21st March 5pm - Submitted
